Division of
Oil, Gas & Mining

LOWELL P. BRAXTON
Division Director

OLENE S. WALKER
Governor

GAYLE F. McKEACHNIE
Lieutenant Governor

April 5, 2004

TO: Minerals File

FROM: Doug Jensen, Senior Reclamation Engineer *DJ*

SUBJECT: Site Inspection, Feller Stone, Inc., Navaho Sandstone Project,
S/053/024, Washington County, Utah

Date of Inspection: March 24, 2004
Time of Inspection: 12:05 p.m.
Conditions: Warm, Breezy
Participants: Doug Jensen, DOGM

Purpose of Inspection:

The operator had requested that the Division inspect and close this permit.

Getting to the site:

Turn west off highway 17 in the town of Toquerville, cross Ash Creek and travel ~4 miles to the site.

Observations:

The road leading to the site is rough and appears to be used mainly by off-road vehicles at this time. Impacts, within the area indicated on the maps as the permit map, seem to be mainly due to the off-road vehicle use of the area. If there had been mining impacts prior to my visit, it was minimal.

Conclusions and Recommendations:

There is no area on the site that would require any reclamation; therefore, I recommend that this permit be closed.

DJ:jb

cc: John Blake, SITLA
